

## 3/30 - 4/3 Digital Learning Plans

What are we learning this week?

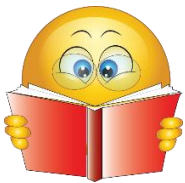

### Math

We are focusing on solving **word problems**. Students will add or subtract to solve for the answer to problems. The numbers will all be less than 150.

### Reading

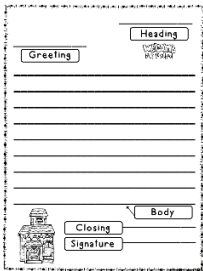

We are identifying the main **purpose of a text**. We are looking for what the author wants to **answer, explain, or describe**.

### Phonics

We are learning how adding **-er** and **-or** change the meaning of a word. For example, a **teacher** is someone who teaches.

### Language Arts

We are learning how to use **commas** in letters. We use commas in the **date**, during the **greeting**, and in the **closing**.

### Social Studies

We are studying **economics**. This means how people save and spend money. Students should understand needs vs. wants, and goods vs. services.

Monday

Math

3/30

Lesson- <https://www.youtube.com/watch?v=xjFaZiPoEu0>

Activity: Work word problem with video, need paper and pencil

Log- in to Dreambox when you finish

Reading

[Reading at Home Video 3/30](#)

Paper and pencil needed.

Extension: Headsprout and Raz Kids

[More Author's Purpose Practice](#)

Phonics

Lesson - <https://youtu.be/Htlley72I1w>
