

## 5/4 - 5/8 Digital Learning Plans

What are we learning this week?

### Math

We are learning about counting money and how to solve word problems involving money. Students will count pennies, nickels, dimes, and quarters.

### Reading

We are learning about the main idea of a text. The **main idea** is what the text is mostly about. The **supporting details** are the information used to support the **main idea**.

### Phonics

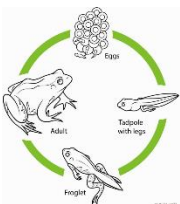

We are learning about the prefix: dis- and the suffix -less. Prefixes are word parts that are added to the beginning of the word. Suffixes are word parts that are added to the **end** of the word. Prefixes and suffixes change the meaning of a word.

### Language Arts

We are learning about past tense irregular verbs. These are verbs that do not end in -ed when we make them past tense.

### Science

We are learning about the life cycle of amphibians. Amphibians are cold blooded animals that have a backbone and lay unshelled eggs. They live part of their life on land and water.
